

# Study on the engagement of young men with Health Services

By Solomon Nkululeko Ndaba  
Sekanevana Cuthbert  
Amos Kateta

# Study

- **Question:** What will engage young men (ages: 16-24) to access health services?
- **Methods:** Qualitatively, Focus group discussions, In-depth interviews.
- **Aim:** Increase the uptake of SRH services by young men.
- **Objective:** To identify barriers and propose solutions to engage men with health services and in particular the HIV care cascade and for those solutions to help policy makers, MOH's, funders and implementers.
- **Risks:** Small non-randomised sample size.
